## KRADDICK'S LISTENERS PICK THE DOCTORS MAKEOVER

### **“The Doctors” Grant Garland, Texas Resident Sommer White a Life-Altering Surgery to Remove Excess Skin After Shedding 150 Pounds**

Irving, TX – After 9,734 votes were cast on KiddLive.com, Garland Texas resident Sommer White has won the “Gettin’ Sexy Back Ultimate Makeover,” courtesy of “The Doctors.” With times being financially tough, Kidd Kraddick called on “The Doctors,” the number one new syndicated talk show, to give a lucky listener an ultimate makeover. Over the past month, “The Doctors” asked listeners of Kidd Kraddick in the Morning to nominate someone who was in need of a cosmetic makeover. Out of the thousands of entries, four finalists were selected for the audience to vote. Today, the audience chose Sommer White from Garland, TX.

Nominated by her best friend, Randi Ledwick, from San Deigo, CA, Sommer had gastric bypass surgery five years ago and needed “The Doctors” help to get rid of her excess skin. Now 150 pounds lighter than the 300 pounds she weighed, Sommer’s dream is to buy regular clothes in a regular store. “I’m not getting my sexy back, I’m trying to get it in the first place!” says White.

Kraddick and his staff will follow White over the next few months as she undergoes her makeover. Listeners can track White’s journey during her makeover by logging onto [www.Kiddlive.com](http://www.Kiddlive.com). Look for Kraddick to appear on “The Doctors” over the next few months when the show debuts White’s new look!

From the creative team behind the long-running hit series “Dr. Phil,” “The Doctors,” does for health care what “Dr. Phil” has done for down-to-earth discussions of emotional and psychological issues. The series’ experts, ER physician (and former ABC “Bachelor” in Paris) Dr. Travis Stork, obstetrician and gynecologist Dr. Lisa Masterson, plastic surgeon and reconstructive surgery expert Dr. Andrew Ordon and pediatrician Dr. James Sears, focus on the compelling, real-life experiences of the show’s guests and then weigh in, disseminating valuable information about health, medical care and drugs in a compelling, informal, easy-to-understand and entertaining format. “The Doctors,” taped in front of a live audience in Hollywood, is produced by Stage 29 Productions and distributed by CBS Television Distribution. Jay McGraw, Carla Pennington and Dr. Phil McGraw are executive producers.
