The Dustin J. Wells Foundation honors the memory of a very special young man. After the loss of Dustin Jack Wells in a car accident in 2005, his family and friends searched for ways to keep his memory alive and allow his life to continue touching others. A fund was set up and the dollars collected are used for the sole purpose of reaching out to others in Dustin’s honor. Dustin J. Wells is the son of prominent Nashville cosmetic dentist, Dr. Dennis Wells of the Nashville Center for Aesthetic Dentistry. For more information on Dr. Wells or his practice visit www.drdenniswells.com.

Since its inception in 2008, the benefit concert has had the support of some of music's greatest artists, including Ronnie Dunn, Kellie Pickler, Dierks Bentley, Lady Antebellum, Peter Cetera, Peter Frampton, Ronnie Milsap, Gunnar Nelson, and many other generous and talented musicians who have donated their time and talent to support the efforts and causes of Dustin’s foundation.

A portion of the proceeds from this year’s Gift of Music concert will go to Scott Hamilton CARES Foundation. Established as a national identity in 2014, this charitable organization is dedicated to changing the future of cancer by funding advanced, innovative research that treats the cancer while sparing the patient. Because of his strong love for music, donating to the W.O. Smith Music School is another way Dustin can be remembered, by sharing the “Gift of Music” with underprivileged children in our community. With the provision of free instruments and 50 cent lessons, these young lives can continue to be changed, grown and enriched in memory of Dustin.
